

Places and Rooms Quiz - Instructions

Introduction: This activity can be used as a fun warm up or closing activity as well as a way to review places.

First, drill the pronunciation and then:

1. a) Cut places into strips of paper and give one to each student. They then can mingle with their classmates to find the answers.
b) Give each student the whole handout and they can answer by mingling and asking.
c) Give one handout to a seated pair and let the pairs work out the answers and then review as a class.
2. Use a game show in a later class to review. Put classes into seated teams and then you're the Quiz master and you ask the questions to students who raise their hands, and assign points for correct answers.

Places and Rooms Quiz - Activity
